FOR IMMEDIATE RELEASE

Fuji Spray Sponsors CREF's Art Meets Automotive and Launches U.S. Distribution Partnership with MEDCO

Visit Fuji Spray in Las Vegas at SEMA Booth 34087, November 3–6

TORONTO, Ontario — October 30, 2026 — Fuji Spray Auto will exhibit at the 2026 SEMA Show, November 3–6 in Las Vegas. The company will highlight its line of high-performance, top-tier compressor spray guns at a highly compelling price point, as well as HVLP turbine spray systems for mobile auto refinishing. Within the booth, Fuji Spray will feature a custom Porsche painted in a graffiti motif by Adam Stone (@stonecoldkustoms) using Fuji Spray's compressor guns.

This year, Fuji Spray Auto is proud to extend its partnership with CREF through a sponsorship of its Art Meets Automotive (AMA) program. Now in its fifth year, the program gives collision repair students and instructors a national platform to showcase their creativity and technical skills.

As part of its sponsorship, Fuji Spray Auto donated 50 professional spray guns to CREF: 10 for schools in the AMA program and 40 to be distributed at SEMA based on applications for support. Competition winners will be recognized at the CREF Instructor Breakfast during the show.

"Supporting CREF has been one of the most impactful ways for Fuji Spray Auto to invest in the future of auto refinishing," said David Sherman, President of Fuji Spray. "We have been a committed CREF supporter for multiple years, and seeing the organization's impact up close at SEMA has only strengthened our commitment to the partnership."

Fuji Spray Auto is also announcing its U.S. partnership with MEDCO as Fuji Spray Auto's National Warehouse / Distribution partner. Fuji Spray is proud to have formalized the relationship with MEDCO and is committed to working with MEDCO's incredible team to take the Fuji Spray Auto brand to the next level. Jobbers working with the MEDCO network can now find Fuji Spray's compressor guns, HVLP turbines, and all parts and accessories at all of MEDCO's six warehouses across the U.S.

SEMA attendees are invited to visit Booth 34087 to meet the Fuji Spray Auto team, explore its automotive spray equipment, and discuss product selection, educational support and distribution opportunities. For more information, visit fujisprayauto.com.
